

Sai Priya Ramini

priyaramini@gmail.com | 361- 442 - 9426 | <https://www.linkedin.com/in/saipriyaramini/>

Professional Summary:

Data Science and Computer Science Graduate Student at Texas A&M University–Corpus Christi with strong experience in data preprocessing, machine learning, and full-stack application development. Proficient in Python, SQL, Pandas, NumPy, and Scikit-learn, with a proven ability to clean, analyze, and visualize large datasets. I am skilled in Dockerized pipelines, REST API development, and statistical modeling to drive AI-powered insights and automation. Passionate about applying analytical and programming expertise to real-world simulation and data-driven environments.

Education

Master’s in Computer Science | Texas A&M University, Corpus Christi | Aug 2024 – May 2026

Bachelor of Technology in Information Technology
Joginpally B.R Engineering College | Dec 2020 – May 2024

Skills

- **Programming & Data Tools:** Python, SQL, MySQL, Bash, Linux
- **Data Science & ML:** Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, Data Cleaning, Feature Engineering, Regression, Classification.
- **Frameworks:** Flask, Spring Boot, Angular
- **Visualization & Analytics:** Power BI, Tableau, Streamlit, Excel
- **DevOps & Deployment:** Docker, Git, GitHub, CI/CD Pipelines
- **Robotics Simulation:** ROS Noetic, Gazebo, RViz, TurtleSim
- **Other Tools:** Jupyter Notebook, VS Code, MS Office

Professional Experience

Volunteer Research Assistant:

Texas A&M University, Corpus Christi | Supervisor Dr. Jose Baca | Sept 2025 – Present

- Assisting in the development of modular robotics and rover stimulation systems using ROS Noetic, Gazebo, and RViz.
- Implementing Python-based control scripts for robot movement, sensor integration, and real-time data visualization.
- Supporting research on autonomous navigation, robotic coordination, and stimulation testing with ROS environments.
- Collaborating with the research team on experiments, debugging, and performance evaluation of robotic modules.

Graduate Grader:

Texas A&M University, Corpus Christi | Supervisor Mahboobeh Haghparast | Aug 2025 – Present

- Evaluates coursework, projects, and exams for 27+ undergraduate students in Database Management Systems (COSC 3336) and Cyber Security (COSC 3301).
- Applied SQL, relational models, and cybersecurity principles to assess assignments and ensure grading accuracy.
- Maintained student grades in Canvas LMS, ensuring timely, accurate, and confidential record-keeping.
- Provided structured feedback, improving clarity and turnaround time by 15%.

Web Development Internship:

Oasis Infobyte | Remote | Jan 2023 – Feb 2023

- Developed a responsive blog and portfolio using HTML, CSS, and Bootstrap.
- Enhanced site performance and UX, achieving 30% faster load with optimized front-end design.
- Implemented version control using GitHub for collaborative code management.

Academic Projects:

Micro – Ecommerce Application:

Texas A&M University, Corpus Christi | Feb 2025 – May 2025

- Designed and developed a microservices-based e-commerce platform using Angular and Spring Boot with MySQL databases.
- Supported 100+ concurrent users, handling ~120K API requests/day with 99.9% uptime.
- Implemented RESTful APIs, DTO mapping, and optimistic locking, ensuring data consistency.
- Reduced deployment time by 70% via CI/CD pipelines with Docker image automation.
- Integrated Payment gateway support and real-time notifications to enhance user experience.

Emotive Chat Bot:

Texas A&M University, Corpus Christi | March 2025 – May 2025

- Built an interactive chatbot that detects user emotions like happiness, sadness, anger and stress using advanced NLP and machine learning techniques.
- Utilized the Sentiment140 dataset for training emotion classification models to enhance the chatbot’s emotional intelligence.
- Created a Flask-based Python backend to handle NLP tasks and model inference and combined it with a responsive frontend using ReactJS.
- Implemented emotion-aware response generation to deliver personalized and empathetic conversations.

DevOps Tools:

- **Cisco:** Data Science
- **Forage:** Data Visualization
- **IBM:** Introduction to Cloud Computing, Data Analytics
